

Domodedovo airlines Ilyushin Il-62M

Radome disintegration

On June 18, 2007, an IL-62M of Domodedovo airlines RA-86530 DMO125 suffered radome disintegration approximately one hour before arrival to Khabarovsk—Novy (KHV/UHHH). Pieces of radome also damaged No.3 engine. Cause of the damage is unclear at the moment.

Pilots didn't declare an emergency, because all airplane systems worked well. The aircraft landed safely and was towed to the stand to disembark passengers.
